

How precious to me are your thoughts, O God! How vast is the sum of them! Were I to count them, they would outnumber the grains of sand. (Psalm 139:17-18)

God is speaking all the time and is not short of things to say, it just requires commitment on our part to press in and hear.

For God does speak, first one way, then another, though man may not perceive it. (Job 33:14)

At every moment of our lives God is speaking. We just need to learn to slow down our busyness, turn on our spiritual hearing and tune in to what He is saying.

The different ways that we encounter God

Visitations	(Judg 13:3)	(Rev 4:1)	Throne Room

Trances	(Acts 10:10)	(Mat 2:12)	Dreams
Body senses	(Luke 8:46)	(Dan 7:13)	Visions
Scripture	(Mark 1:2)	(Acts 21:10-11)	Other People
Circumstances	(Hos 1:2)	(Jerm 1:11)	Creation/Heavens
Internal Pictures	(John 1:48)	(Jerm 13:1)	Still Small Voice
Feelings/Nudges	(Acts 15:28)	(Acts 14:9)	Knowing Insight

Encountering God more

There are many things we can do to tune in and hear more of God:

- ✓ Be more aware of the different ways that God speaks to us
- ✓ Meditate on the things of God
- ✓ Spend time waiting on God
- ✓ Pray and intercede for people and situations
- ✓ Pray in tongues and stir up the Holy Spirit inside us
- ✓ Read the Bible

Prophecy is not about learning new tips to hear God better, it's about our relationship with God. There will be times when God doesn't seem to be saying anything in the moment, that's because prophecy is not just about His voice, but His presence, it's about encounter. If we become lovers of His presence He will always speak to us in time.

Prophetic Colours

Where do we get the prophetic meaning of colours?

The meanings of colours come from a variety of sources the primary one of which is the Bible. Colours are used through Scripture in precise ways which helps us to see the purpose God has for that colour.

Another source of understanding of colours is social or colloquial usage. For instance we have all heard the expression "green with envy" or "seeing red". These associations are in place because they have some Scriptural truth behind them.

Finally science can add to our understanding of colours. Everything that has been proven in physics was created by God to work that way, so truths in science can help to reveal God's intended purpose for that colour.
